

LIVING RETAINING WALLS

BLOCK COMPARISON

Our living retaining wall block is a revolutionary product for landscape contractors trying to save time and money when installing medium height residential or commercial walls.

Our plantable, lightweight block makes it easier than ever to liven up your clients space. As our world tends to get greener every day, it is nice to have an alternative to the traditional concrete blocks. It installs the same way, but saves so much space on the job site!

This comparison sheet is a tool to help you compare our Varden Block to Keystone Harrington 3 piece. It highlights the advantages of each product in an easily digestible format.

BLOCK ATTRIBUTES	VARDEN	KEYSTONE
Square feet per pallet	250 sq ft.	30 sq ft.
Blocks per pallet	250	60
Weight per block	3 lbs	52 lbs
Weight per pallet	750 lbs	3,140 lbs
Cost per sq foot	\$14.00	\$13.33
Engineered height	5'	4'
Weight per 500 square feet	1,600 lbs	53,167 lbs
Pallets per 500 square feet	2 pallets	16.7 pallets
Plantable	✓	✗

There's no doubt that the Varden Block saves time, space, and labor. From a design standpoint we offer our blocks in 4 different colors: gray, tan, brown, and green. Our blocks install exactly the same as a traditional concrete block without the hassle of using a concrete saw or smashing your fingers when placing heavy blocks. The plantable feature provides a great upselling opportunity!

Choose Varden Blocks for your next project and see just how easy it really is, you'll never want to go back to concrete blocks!

inventory

PAST PROJECTS

500 Tan Blocks shipped to a Nursery in Orange County, CA that doubles as a display and a photo background in their event space. The wall curves in and out of the property to create terraces at a range of 4'-5'. Planted with various succulents & ground covers.

250 Green Blocks shipped to Spokane, WA for a residential backyard project. The main wall is 4' high and tapers down from there. It will be planted in Spring 2023 with Sedum and English ivy.

1,100 Gray Blocks shipped to Sag Harbor, NY for a residential backyard renovation. Bought by a construction company and subcontracted to a local landscaper. The main wall is 5' tall and tapers from there. It will be planted with Sedum in Spring 2023.

200 Gray Blocks shipped to a church in Annapolis, MD to facilitate the installation of a rain garden. After installation it was planted native perennials which still thrive with minimal maintenance.
